	1st	2nd	3rd	4th	5th	6th	Final	Selector shafts	Selector Forks	Selector Fingers	input shaft	layshaft	output shaft	Final Drive Included
AGB Racing Transaxles - Mid Size 10 Inch Ring and Pinion														
5 speed Synchromesh														
6 speed Synchromesh														
5 speed Dog Change 2nd Design														
6 speed Dog Change 2nd Design														
5 speed Dog Change 2nd Design Generation 3 (high Shift)														
5 speed Sequential														
6 speed Sequential														
AGB Racing Transaxles - Full Size 11.5 Inch Ring and Pinion														
5 speed Synchromesh														
6 speed Synchromesh														
5 speed Dog Change 2nd Design														
6 speed Dog Change 2nd Design														
5 speed Dog Change 2nd Design Generation 3 (high Shift)														
5 speed Sequential														
6 speed Sequential														
ST6 Racing Transaxles and Inline Transmissions														
ST6 (front engine transaxle with gear stack forward of rear axle)														
V8 Supercar Specification (fitted with spool)														
ST6 fitted with LSD														
ST6 fitted with front clutch housing (not including clutch)														
ST6M (mid mount application)														
ST6M fitted with spool														
ST6M fitted with LSD														
ST6I (inline application), low input & low output. Small rear drop gears with 1350 output yolk														
ST6I (inline application), high input & hig output. Small drop gears at the front of tran with 1350 output yolk
